Prairie Special

The Prairie Special range is available with a wide range of boom sizes, wheel options and tank sizes to suit your farming practice. Whether it be pasture, broadacre or rowcrop.

Control station

Optional tight turn hitch

Prairie Special 2500 & 3000L

The small frame Prairie Special is a fully featured sprayer efficiently packaged in a layout to suit pasture, horticultural and dry-land cropping applications.

2500L model

- ▶ 12 to 24m Delta booms
- ▶ 140 l/min pto diaphragm pump
- ▶ 3 way electric control (Raven SCS450 opt)
- ▶ 100L rinse tank
- ▶ 14.9 x 24 tyres

3000L model

- ▶ 18 to 24m Delta booms
- ▶ 170 l/min pto diaphragm pump
- ▶ Raven SCS450 rate controller
- ▶ 180L rinse tank
- ▶ 16.9 x 34 tyres

Prairie Special 4000-6500L

The large frame Prairie Special is for operators looking for extra capacity, No 1 boom ride and bullet proof reliability. Built on the strongest trailing sprayer platform.

- ▶ 4000, 5000 & 6500L tank capacities
- ▶ Delta or TriTech boom width ranging 18 to 36m
- ▶ 170 l/min pump (260 l/min optional)
- ▶ 400L rinse tank
- ▶ Raven SCS450 rate controller
- ▶ 18.4 x 38 tyres
- ▶ Optional airbag suspension

3 way boom suspension

SCAN ME

G4 Crop Cruiser

Lightweight for minimal soil disturbance, high clearance to cover large crops, 2 or 4 wheel drive with a track width to suit all situations. The G4 can do it all.

Optional mechanical 4WD

32 | SELF-PROPELLED

High outputs with low inputs

9.6^{*}
L/HR

*Average fuel usage taken from a G4 Crop Cruiser operating in the Western district of Victoria over a 40 hour period. Weight may vary according to sprayer specifications.

G4 Crop Cruiser

- ▶ 4000L product tank
- ▶ 24 to 36m TriTech boom
- ▶ 2 or 4 wheel mechanical drive system
- ▶ 165hp Cummins engine
- ▶ Allison 5 speed transmission
- ▶ Hydraulic or manual track width adjustment
- ▶ Light tare weight 9.4 tonne*

Hydraulic adjustable track

An optional hydraulically adjustable axle providing a true 2000 to 3000mm wheel track.

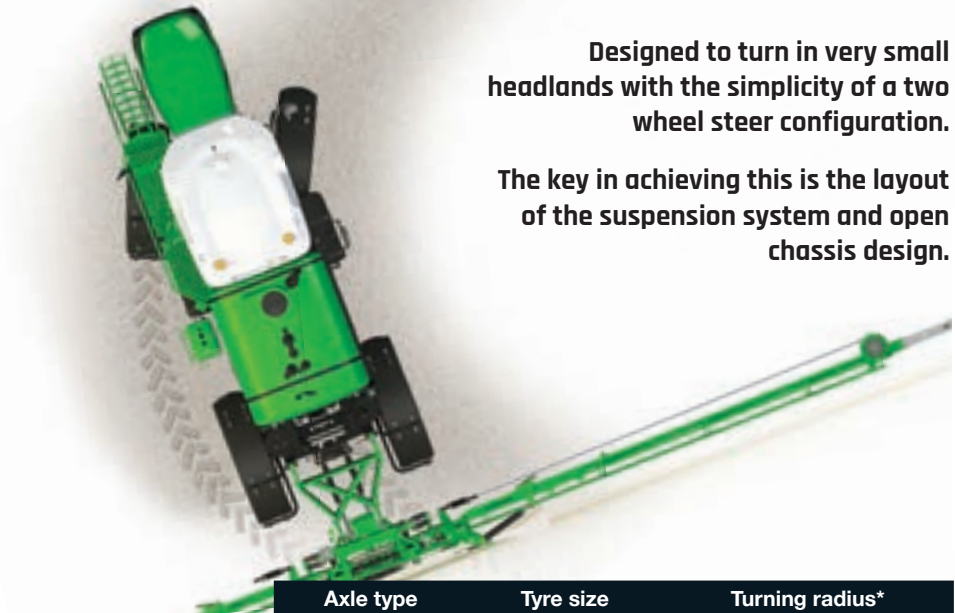

Hydraulic track adjustment can be done on the move with a push of a button. Cylinders located inside the front and rear axles control the track width.

Power is transferred to the rear wheels via multistage extendable drive shafts coupled to the droplegs to get the power to the ground.

Tight headlands, no worries

Designed to turn in very small headlands with the simplicity of a two wheel steer configuration.

The key in achieving this is the layout of the suspension system and open chassis design.

Superior comfort

	Axle type	Tyre size	Turning radius*
Hydraulic adjustable	2000-3000mm	380/80 R46	5000mm @2m^
			4800mm @3m^
Fixed wide	2WD 3000mm		5800mm
	4WD 3000mm		5800mm
Fixed narrow	2WD 2000mm		5900mm
Manual adjustable	3000-4000mm		4400mm @3m^
			4200mm @4m^

*Inside tyre measurement. ^Track setting

all-out spraying specialist

SCAN ME

G4V Crop Cruiser

Designed specifically for horticultural operators that require narrow wheel tracks and a tight turning radius, slower operating speeds & higher water rates.

4WD steering

G4V four wheel steering equals more hectares for cropping.

The switchable four wheel steering gives a turning radius of just 2.9m* when fitted with large diameter 380/90R46 tyres and a 1.81m wheel track.

* Inside of tyre

Premium cabin

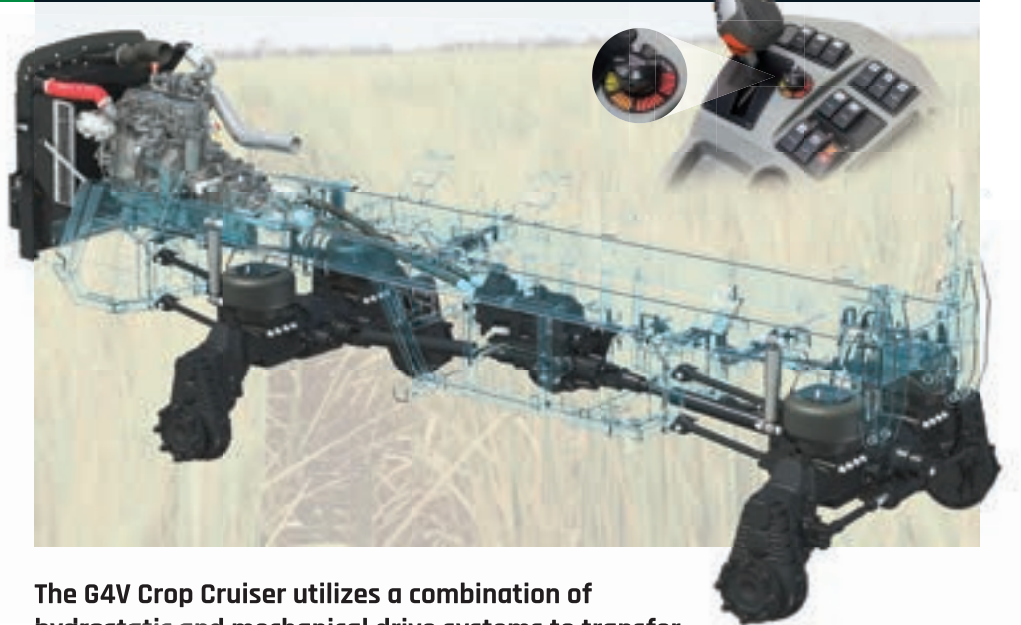

G4V Crop Cruiser

- ▶ 4000L product tank
- ▶ 24 to 36m TriTech booms
- ▶ 4WD / 4WS
- ▶ RapidFire nozzle tech
- ▶ RapidFlow boom recirculation
- ▶ Multiple plumbing configurations
- ▶ Lightest tare weight in class - 9.45 tonne*

*Weight may vary according to sprayer specifications.

Hydro-mechanical drive system

The G4V Crop Cruiser utilizes a combination of hydrostatic and mechanical drive systems to transfer maximum power to all four wheels with minimum fuel usage.

At the heart of the system is a single high capacity variable displacement hydraulic pump and motor. These two components form the hydrostatic part of the drive system and allow the operator to adjust the sprayer speed in smooth infinite amounts. In

addition, the on-board computer adjusts the engine rpm to precisely match the required speed setting.

The result is fuel usage averages as low as 14 l/hr and reduced cabin noise.

Wheel track

Designed to suit many Rowcrop applications the G4V sprayers feature track width adjustment by changing the dish and rim configuration.

Wheel tracks from 1.81m - 2.36m can be achieved by reversing the bolted rim and

disk to allow up to 16 track width variations. Tyre size 380/90R46.

Wheel track	Offset	Wheel track	Offset	Wheel track	Offset	Wheel track	Offset

Mechanical drive

1600⁺
RPM

Work station pod - Fast Fill

G6 Crop Cruiser

- ▶ 6000L product tank
- ▶ 36-48m TriTech RivX boom
- ▶ 2 or 4 wheel full mechanical drive system
- ▶ 225hp Cummins engine
- ▶ Allison 6 speed trans
- ▶ Lightest tare weight in class - 11.6 tonne*

Mechanical advantage

11.8
L/HR

There are numerous benefits with a mechanical drive sprayer. Less maintenance costs, less noise, significant fuel reduction, less heat generated, lower engine rpm, lower horsepower required, more torque at the wheels for a longer component life.

- ▶ Mechanical drive
- ▶ Light weight
- ▶ 2WD or 4WD
- ▶ Cummins 225hp engine
- ▶ 450L fuel tank
- ▶ 4 wheel disc brakes
- ▶ LSD provides superior traction
- ▶ 5 link suspension

Smooth operator - TriTech RivX boom

A boom which bounces, sways or yaws deposits chemical unevenly on the target. This can result in weed escapes and may even contribute to resistant weeds.

- ▶ TriTech boom suspension controlling pitch, roll and yaw
- ▶ Multiple plumbing configurations and application technology available
- ▶ RivX design incorporates outer wings construction using a mixture of steel & aluminium sections with high strength structural rivet - even greater stability & rigidity

G-Hub - integrated system

capacity broadacre king

G8 Super Cruiser

A massive 8000L tank capacity with TriTech V booms up to 48m. A rigid chassis, suspension and mechanical driveline system delivers unparalleled driving and spraying dynamics.

Strength, stability & control

Claas cabin

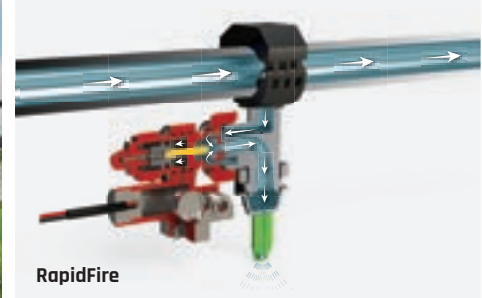

68.5_{DB}

68 Super Cruiser

- ▶ 8000L product tank
- ▶ 36 to 48m TriTech boom
- ▶ 260hp Cummins engine
- ▶ Allison 6 speed trans
- ▶ 3m wheel track
- ▶ Lightest tare weight in class - 12 tonne*
- ▶ Average fuel usage 13.9L per hour[^]

Tech up your sprayer

Goldacres sprayers have a range of boom options that will take your spraying efficiency to the next level.

- ▶ **RapidFire / 3TS / 3TS Pro** - switching at the nozzle for quick on/off tiered section control.
- ▶ **RapidFlow** - boom lines fully primed without spraying and return to tank.
- ▶ **Raven Hawkeye** - Pulse width modulation (PWM) control with turn compensation for precise application.
- ▶ **Boom height control** - Keeps the nozzles at the optimum height above the target without constant operator input.
- ▶ **Weed detection** - Using high speed, high definition cameras and deep learning AI logic to determine what is a weed and what is not.

Mechanical advantage

13.9[^]
L/HR

Full-time mechanical 4WD equates to up to a third of the fuel saving compared to some hydrostatic drive sprayers in the same situation.

Turn the Goldacres mechanical advantage into your advantage.

- ▶ Less maintenance costs
- ▶ Less noise
- ▶ Significant fuel reduction
- ▶ Less heat generated
- ▶ Lower engine rpm
- ▶ Lower horsepower required
- ▶ More torque at the wheels
- ▶ Longer component life
